

CLAIMS

1. A band for curing a human body, comprising:
a flexible sheet member coated with an adhesive on a surface thereof;
5 silver attached to the surface of the sheet member coated with the adhesive; and
at least one optical fiber attached to the surface of the sheet member coated with the
adhesive.
2. The band as claimed in claim 1, wherein the silver is silver foil, silver wire, silver
10 fabric or the combination thereof.
3. The band as claimed in claim 2, wherein the optical fiber is positioned at regular
intervals between the sheet member and the silver foil when the silver is made in the form
of the silver foil.
- 15 4. The band as claimed in claim 2, wherein the optical fiber is alternately arranged on
the sheet member at predetermined intervals with the silver wires when the silver is made
in the form of the silver wires.
- 20 5. The band as claimed in any one of claims 1 to 4, wherein a length of the optical
fiber is within a range of 0.1 cm to 2.0 cm.
6. The band as claimed in claim 5, further comprising a black line disposed on the
surface of the sheet member coated with the adhesive.
